Facilities - New Dehumifider, Carpeting, Interlock Walkway

With Summer here in the Valley, there have been many good things happening at the Club:

1. New Dehumidifier: With the upgrading of the insulation introduced by the 2year old metal roofing, the dehumidifier had to be replaced in order to better manage humidity levels.
2. Rink side carpeted deck: Support deck at the lounge end has been replaced and reinforced - no more squeaking by! A rubber sided carpet & rubber edging is now in place.
3. Interlock walkway: Re-levelled to reduce ponding of water runoff/snow melt.

“Too000 many emails”

MCC communications hopes to consolidate all things curling into a newsletter format. Deadling for submission 10th of each month
