Facilities - Reducing Hydro Costs

One of the biggest operational challenges for many curling clubs across the country is the rising cost of hydro. In response to this, your MCC Board has approved a retrofit of on-ice lighting. The scope of the facility upgrade involves:

- Existing tracks cleaned & painted; installation of new LED light fixtures with replaceable lights

Investment cost of this retrofit is \$14K with a Hydro rebate of \$2K therefore net investment of \$12k. Anticipated payback is estimated to be 3.7years, with a total savings over 10 years anticipated to be \$33K! Thanks to the MCC Facility Tag Team of Bob VT & Lindsay Allen for their hard work over the summer!

Learn2curl returns to MCC

Head coach Tersh Doe is leading this very successful MCC initiative again this season. Learn2curl is scheduled from OCT to DEC. The first meeting Oct 18th is an off-ice session covering equipment and general program overview. This 10 week program covers curling fundamentals & participants get to know just how fun & social curling is! Thanks to the support provided by *Ottawa Valley Curling Association (OVCA)* grant subsidy program
